Study Options

Study option 1: Virtual Workshop delivery

Students who choose to complete their studies via Virtual Workshop delivery are required to attend a total of seven (7) full-day virtual workshops. The virtual workshops are designed to deliver the content of the program topics in an environment where peer discussion takes place. Virtual workshops provide the opportunity for interactive learning, and they are an ideal way to form new professional networks.

Students are offered a mid-module check in as an opportunity to discuss any questions they have about the learning content or assessments.

Virtual workshops align sequentially to the topics of study, where each topic runs for a minimum of 4 and maximum of 6 weeks between topic commencement and assessment submission.

Places for Virtual Workshop delivery are limited.

Virtual Workshop platforms and times

AHRI offers Virtual Workshop delivery mode in each Australian capital city when sufficient enrolment numbers are met. Virtual workshops run from approx. 9:00am to 5:00pm (AEST/AEDT) and are hosted online, via platforms such as [Zoom](#) conferencing. Details will be advised prior commencement of the program. At a minimum, an up-to-date computer operating system, a reliable internet connection and a web browser are required to participate in a virtual workshop.

AHRI's Virtual Workshops are delivered by qualified and experienced Academic Coordinators (AC). They are experts in human resources and have been selected based on their training skills, qualifications, and practical human resources experience. As well as their reading, students must complete the assessment tasks in their own time. AHRI recommends approx. 12-14 hours of study time per week for duration of each topic of study. Please note virtual workshop hours are inclusive for the recommended study time for that week.

Education support	<p>All students are supported by an Academic Coordinator who is contactable via the LMS. Their role is to provide support by answering questions in relation to academic matters, including course content and assessments.</p> <p>Students also have access to an online student forum where they can share questions and ideas with other students. These forums are an excellent way for students to communicate with each other about their studies. AHRI encourages students to log in to the forums regularly throughout the course.</p>

Ongoing feedback will be provided as you study through:

- Interaction with Academic Coordinators in webinars, virtual check-ins, discussion forums and online messaging.

There are measures in place for AHRI to monitor the activity of students through the online activity logs within the LMS. These logs on student activity and Academic Coordinator activity are recorded and can be retrieved by AHRI at any time.

Formal feedback is obtained through two Student Feedback Surveys completed at the mid-point and conclusion of the course. Informal feedback on any aspect of online learning support can be provided by the student to their Academic Coordinator or AHRI at any time. This provides direct input on the cohort and the quality of the support provided by the Academic Coordinator and AHRI. Continued feedback on matters that affect learner participation and engagement in the course learning and assessment activities are reported and noted by AHRI.
